

CUSTOMER SUCCESS STORY

Keeping Workplace Technology Ready Across Two Dahej SEZ Locations

Annual maintenance for computers, printers, fax, EPABX, router and network infrastructure.

CLIENT: DAHEJ SEZ LIMITED

DAHEJ, BHARUCH | GUJARAT

ENGAGEMENT

1-Year AMC

COVERAGE

Two Admin Buildings

SERVICE RHYTHM

Monthly + Breakdown

EFFECTIVE

01 July 2016

WORK ORDER: DSL/DHJ/COMPUTER/AMC/2016/379

Issued 11 July 2016 | Awarded to M/s. D-Tech Computer Sales & Services

01 | BUSINESS CONTEXT

The Client Requirement

A single support framework for a mixed office-technology environment

Dahej SEZ Limited required accountable maintenance across the administration buildings at Dahej SEZ Part-1 and Part-2. The environment combined user computing, printing, telephony and network systems - creating a need for one coordinated service partner.

OPERATIONAL CHALLENGE

Different device categories required planned maintenance, fast breakdown attention and clear ownership.

BUSINESS SETTING

Industrial administration operations across two SEZ locations with controlled access and safety obligations.

What the engagement had to achieve

- Maintain computers, printers, fax, EPABX, router and network assets under one annual contract.
- Conduct preventive maintenance through an authorized service visit every month.
- Provide breakdown rectification support during the contractual period.
- Operate during Dahej SEZ working days and office hours with disciplined response.
- Follow site safety, manpower, statutory and SEZ movement requirements.

ENGAGEMENT PRINCIPLE

Preventive care plus responsive breakdown support - delivered through a defined monthly rhythm and documented accountability.

02 | SERVICE DESIGN

D-TECH AMC Coverage

One coordinated service layer across six technology categories

01 Computers

Preventive checks and fault support for workplace computing systems.

02 Printers

Routine maintenance and defect attention for office printing equipment.

03 Fax Systems

Support for fax and printer-cum-fax equipment included in the AMC.

04 EPABX

Maintenance coverage for the office telephony and EPABX environment.

05 Router

Support for the routing equipment serving administration operations.

06 Network

Maintenance support for the connected network environment across both premises.

Service operating rhythm

1**PLAN**

Monthly visit

2**CHECK**

Preventive service

3**RESPOND**

Breakdown call

4**RESTORE**

Rectify defect

5**REPORT**

Service record

DELIVERY CONTROL

The contractor was responsible for authorized personnel, tools, manpower, equipment and safety arrangements required to execute the AMC.

03 | CASE STUDY OUTCOME

Why This Engagement Matters

A documented foundation for industrial-site managed support

The work order confirms Dahej SEZ Limited's acceptance of D-TECH's offer and establishes a defined one-year maintenance arrangement across both administration locations. The engagement demonstrates D-TECH's early capability to manage a heterogeneous IT and office-technology estate within an industrial operating environment.

01 Unified Ownership

One AMC partner for computing, printing, telephony, routing and network support.

02 Two-Site Coverage

Service responsibility extended across Admin Buildings at Dahej SEZ Part-1 and Part-2.

03 Preventive Rhythm

Authorized service personnel scheduled once every month for planned maintenance.

04 Breakdown Readiness

Defined responsibility to attend and rectify defects during the contract period.

D-TECH EXPERIENCE SIGNAL

More than a maintenance order - this engagement reflects D-TECH's ability to combine people, preventive process and multi-technology support for industrial clients.

Build a dependable AMC and FMS model for your enterprise.
