PLOT Z-3, DAHEJ SEZ | GUJARAT

DESKTOP ESTATE

40 Systems

LAPTOP ESTATE

14 Systems

PRINT ESTATE

14 Printers

NETWORK

4 Cisco 48-Port

2017 RENEWAL: WO/DIC/2017/44

Issued 26 June 2017 | Comprehensive AMC | Commercial value omitted

01 | BUSINESS CONTEXT

A Mixed Lifecycle IT Estate

Renewed responsibility across workplace, network and server infrastructure

DIC Fine Chemicals renewed D-TECH's comprehensive AMC for its Plot Z-3, Dahej SEZ operation. The covered estate combined end-of-life devices, systems under warranty, Dell B2B-supported assets, printers, Cisco networking and server maintenance - requiring both technical breadth and commercial clarity.

OPERATIONAL COMPLEXITY

Different lifecycle stages required coordinated support, replacement responsibility and OEM warranty handling.

INDUSTRIAL REQUIREMENT

Service delivery had to comply with plant access, PPE, statutory, quality, health, safety and environmental expectations.

What the contract required

- Preventive maintenance for desktops, laptops, network and server during the monthly visit.
- Emergency breakdown visits as and when required, with immediate engineer deployment.
- Replacement of failed comprehensive-coverage parts with the same model or a current equivalent.
- Warranty replacement coordination without additional service charge.
- Labour support for network expansion, with extension material charged separately.
- Strict adherence to PPE, safety and statutory requirements at the manufacturing site.

SERVICE MANDATE

Keep a mixed IT estate supportable through planned care, rapid breakdown response, parts accountability and OEM coordination.

02 | COMPREHENSIVE COVERAGE

D-TECH AMC Service Model

One managed service layer across six technology towers

01 Desktop Support

Comprehensive support across end-of-life, under-warranty and Dell B2B-backed systems.

02 Laptop Support

Support for warranty and Dell B2B-covered laptops, including service coordination.

03 Printer Support

Comprehensive D-TECH maintenance for the covered office printer estate.

04 Cisco Network

Comprehensive support for four Cisco 48-port network switches and connected operations.

05 Server Maintenance

Monthly preventive maintenance and breakdown support included in the service scope.

06 OEM & Parts

Warranty handling and comprehensive part replacement under defined contract terms.

Service operating rhythm

1**PLAN**

Monthly PM

2**INSPECT**

Performance check

3**RESPOND**

Emergency visit

4**REPLACE**

Parts / warranty

5**REVIEW**

Quarterly billing

QHSE ALIGNMENT

Service quality, PPE compliance, safe work practices and environmental discipline formed part of vendor evaluation.

03 | RELATIONSHIP VALUE

3+ Years of AMC Continuity

Renewal-based trust built through breadth, responsibility and safety

The 2017 work order is expressly recorded as a contract renewal, supporting D-TECH's stated 3+ year AMC relationship with DIC Fine Chemicals. It demonstrates the ability to manage mixed-lifecycle assets, coordinate OEM support, assume comprehensive parts responsibility and operate within an industrial QHSE framework.

01 Multi-Year Continuity

A 3+ year AMC relationship supported by a documented 2017 renewal order.

02 Lifecycle Coverage

End-of-life, under-warranty and OEM-supported systems managed within one framework.

03 Comprehensive Ownership

Defined responsibility for covered part replacement and warranty coordination.

04 Industrial Discipline

PPE, safety, statutory and environmental requirements embedded in service delivery.

D-TECH EXPERIENCE SIGNAL

A mature AMC is not only about repairing devices - it is about lifecycle control, predictable maintenance, parts accountability and safe execution.

Build a dependable AMC and FMS model for your enterprise.
