

ENTERPRISE TECHNOLOGY CASE STUDY

Secure network. Connected workplace. One accountable partner.

Delivery, installation and commissioning of Fortinet security, enterprise wireless, Microsoft productivity and operational IT endpoints.

SECURE CORE

20 APs

43 USERS

ENDPOINTS

Continental Carbon Eco Technology Pvt. Ltd.

Dahej Industrial Estate, Gujarat | PO CCET 2022-23/0014

D-TECH delivered an integrated foundation for secure connectivity, productive users and reliable site operations.

D-TECH Solution Integrators Pvt. Ltd.

End-to-End IT Infrastructure, SAP, Custom Software & Automation Solutions

A complete digital workplace delivered as one integrated system.

The purchase order combines network security, wireless access, productivity licensing, endpoint protection and essential user devices.

20**FORTINET ACCESS POINTS**

Enterprise indoor wireless with tri-radio capability and 3-year 24x7 FortiCare.

1**SECURE NETWORK CORE**

FortiGate 61F with multi-zone interfaces, onboard storage and 3-year 24x7 FortiCare.

43**MICROSOFT USERS**

Office LTSC Standard 2021 licences for consistent desktop productivity.

43**PROTECTED ENDPOINTS**

Trend Micro Apex One endpoint protection subscriptions for one year.

6**OPERATIONAL DEVICES**

2 desktops, 2 barcode scanners and 2 laser printers supporting daily work.

1**ACCOUNTABLE DELIVERY**

Supply, installation and commissioning coordinated through D-TECH.

EVIDENCE BASIS

Scope is based on Purchase Order CCET 2022-23/0014 dated 13 April 2022. Commercial values are intentionally excluded from this case study.

Connect people, systems and operations without fragmenting responsibility.

The requirement crossed multiple technology layers, making design coordination and commissioning as important as the individual products.

SECURE PERIMETER

Protect internet-facing traffic and create a controlled foundation for business connectivity.

ENTERPRISE WI-FI

Provide dependable indoor coverage for users and operational mobility across the site.

STANDARD PRODUCTIVITY

Give users a consistent, perpetual Microsoft Office productivity environment.

ENDPOINT PROTECTION

Apply a common security layer across the planned user endpoint estate.

OPERATIONAL HARDWARE

Enable printing, barcode capture and desktop workloads with supported business devices.

ONE DELIVERY OWNER

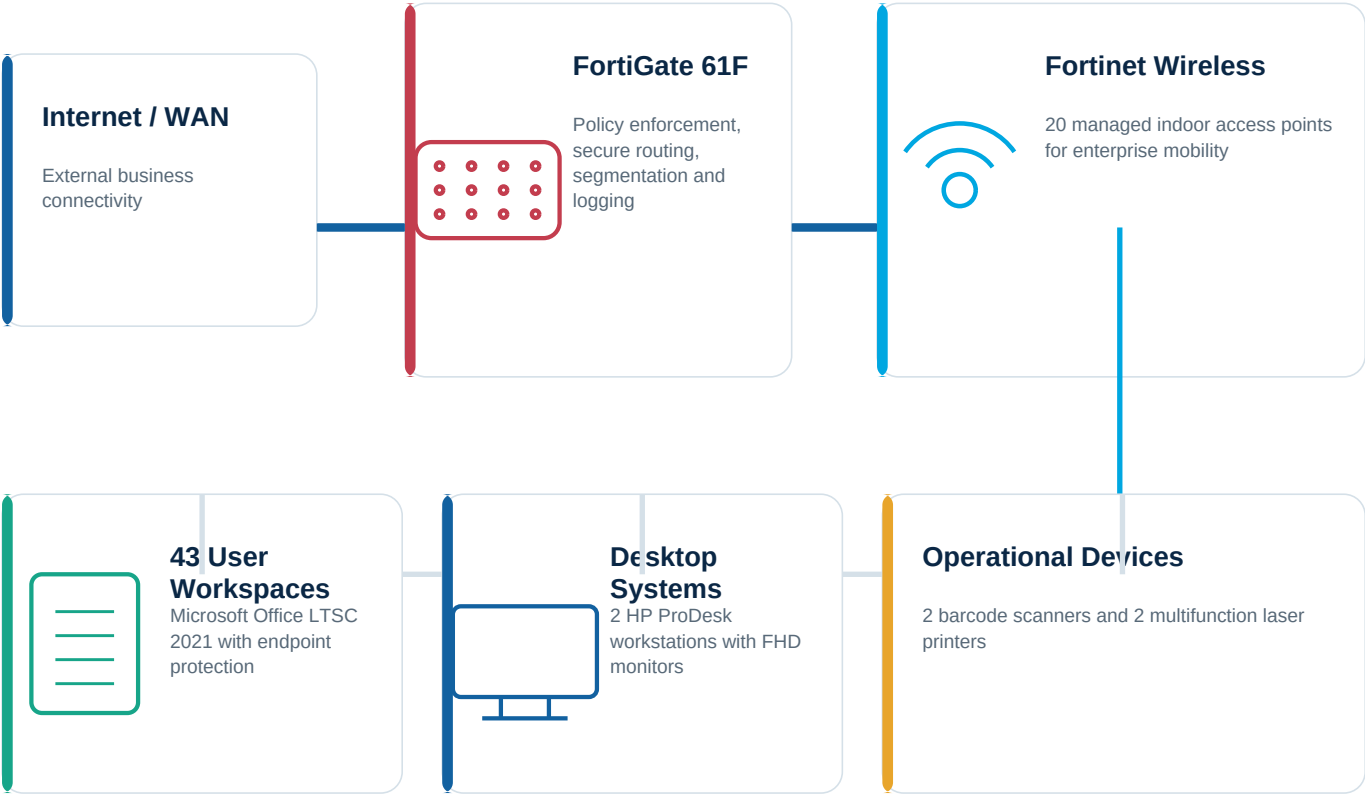

Coordinate supply, installation, commissioning and documentation through one partner.

THE DESIGN QUESTION

How can a growing industrial operation establish secure access, reliable wireless, standard user productivity and essential operational endpoints - while keeping deployment ownership clear?

A secure core connecting users, wireless access and operational devices.

The architecture treats security, access, productivity and endpoints as one managed technology stack.

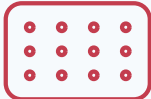

INTEGRATION PRINCIPLE

The firewall is the policy anchor; wireless extends controlled access; Microsoft and endpoint security standardise the user layer; operational devices complete the workflow.

Secure access at the core. Enterprise wireless at the edge.

D-TECH combined a FortiGate appliance and 20 FortiAP units into a support-backed connectivity platform.

SECURE NETWORK CORE

FortiGate 61F

10 Gigabit Ethernet RJ45 ports, including 2 WAN, 1 DMZ and 7 internal ports, with 128GB onboard storage.

3-YEAR 24x7 FORTICARE

ENTERPRISE WIRELESS

20 x FortiAP 431F

Indoor universal tri-radio access points with high-capacity MIMO radios, multi-gigabit Ethernet, Bluetooth Low Energy, USB and flexible ceiling/wall mounting.

TRI-RADIO

MULTI-GIG

3-YEAR SUPPORT

D-TECH IMPLEMENTATION FOCUS

Policy-led deployment, interface planning, wireless placement, device adoption, configuration validation, service documentation and commissioning handover.

Productivity and protection standardised for 43 users.

A consistent software baseline reduces variation, simplifies administration and supports secure daily work.

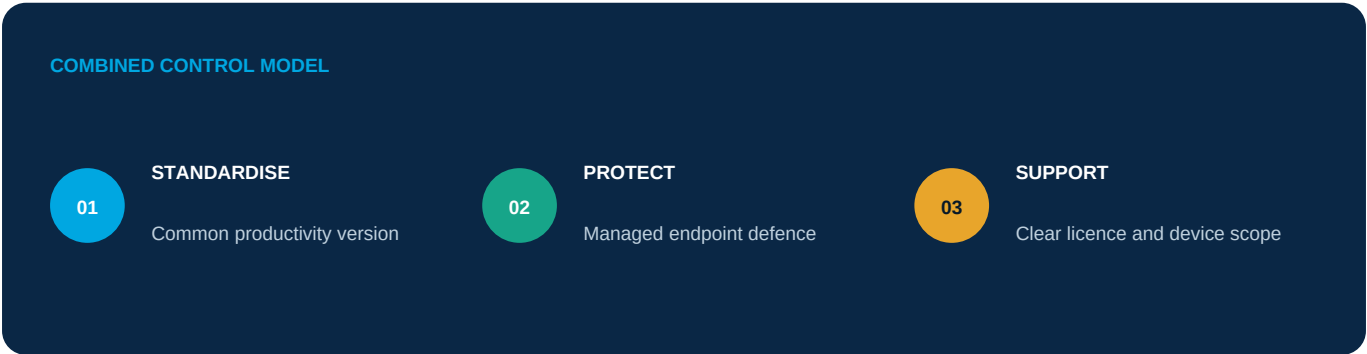

Microsoft Office LTSC Standard 2021

43 perpetual licences create a stable business productivity layer for documents, spreadsheets, presentations and office workflows.

Trend Micro Apex One

43 one-year endpoint-protection subscriptions establish a common security layer across the user estate.

CONSISTENT USER EXPERIENCE

Users work with a common productivity platform.

REDUCED SOFTWARE VARIATION

Licence scope is visible and easier to govern.

LAYERED SECURITY

Gateway and endpoint controls protect different attack surfaces.

SUPPORT READINESS

Product, licence and subscription coverage are documented.

Essential devices integrated into everyday workflows.

The project included supported desktop, barcode and printing hardware in addition to the network and software stack.

2 x HP ProDesk 400 G7 MT

Intel Core i5-10500, 8GB RAM, 512GB SSD, Windows 10 Pro and HP P24v G4 FHD monitor.

3-YEAR ONSITE WARRANTY

2 x Zebra DS2208 Scanners

Barcode scanners with RS232 serial connectivity, serial cable and power supply.

1-YEAR ONSITE WARRANTY

2 x HP M233SDW Printers

LaserJet Pro multifunction printing for compact, reliable office document workflows.

1-YEAR ONSITE WARRANTY

One coordinated scope connected infrastructure, user productivity and operational hardware - reducing handoffs between multiple vendors.

A disciplined path from material control to operational handover.

D-TECH coordinated the complete scope through repeatable delivery, installation and validation stages.

LIFECYCLE ASSURANCE

Onsite warranties and FortiCare coverage provide defined support paths beyond installation.

A stronger technology foundation for secure, connected work.

The delivered scope creates operational value across access, security, productivity and support.

SECURE CONNECTIVITY

A dedicated security gateway creates the control point for WAN, DMZ and internal traffic.

WIRELESS MOBILITY

Twenty enterprise access points establish a scalable indoor wireless foundation.

USER STANDARDISATION

Forty-three Microsoft licences reduce productivity-software variation.

ENDPOINT RESILIENCE

A common endpoint-protection layer strengthens user-device security.

WORKFLOW ENABLEMENT

Desktop, scanning and printing devices support essential operational tasks.

CLEAR ACCOUNTABILITY

One partner coordinates technology, installation, commissioning and support evidence.

OUTCOME

Continental Carbon gained a coordinated digital workplace platform - secure at the gateway, connected through enterprise wireless, standardised at the user layer and supported by fit-for-purpose operational devices.

PROJECT CONCLUSION

From secure core to productive user - delivered as one system.

D-TECH brought together Fortinet security and wireless, Microsoft productivity, endpoint protection and business devices within one delivery and commissioning framework.

SECURE

FortiGate policy anchor

CONNECTED

20 enterprise access points

PRODUCTIVE

43 Microsoft user licences

PROTECTED

43 endpoint subscriptions

ONE SCOPE. ONE IMPLEMENTATION PARTNER. ONE ACCOUNTABLE OUTCOME.
